Specialized warehouse for Out Of Gauge Cargo (OOG)

dls-company offers a modern warehouse complex grade “A” – Shushari for OOG and overweight cargo. The warehouse is used for cold-storage of OOG and overweight cargo. The area gives us an opportunity to store cargo of any size and weight (storage area – 8000 m², asphalt covered area for OOG cargo – 2 ha). The specific features of the warehouse allow us to store small-sized products, roll storage (paper rolls with a diameter of 3 m), motor vehicles, machinery and medical equipment. We also work with hazardous materials, except grades 1 and 7, explosive and radioactive materials. Due to the 24-hour security and video monitoring, we can guarantee the safety of your goods.

The truck movement within the complex is well-adjusted and organized the quick access to the loading ramps and loading/uploading of the vehicles is always assured. The warehouse is equipped with 10 dock levelers + 3 gates at the railroad ramp.
